

## Santiago Tales

A group of retired people decide to embark on a pilgrimage to Santiago, in Northern Spain, under the leadership of an ex-detective and a few nefarious friends. The problem is that a number of them are not exactly devotees of any particular religion, and are doing it because they think its a fun thing to do while seeking entertainment and companionship on their journey of discovery. Each evening, one person in the group is committed to telling a short story, and it is this collection of stories that forms the core of the book, whilst in the background tensions are brewing between various factions in the group that eventually lead to divine retribution. The inspiration for the style of presentation came from Canterbury Tales by Geoffrey Chaucer, but without delving too deeply into the poetry associated with the original masterpiece. The material in the individual stories varies from the raunchy to the bawdy and from the hilarious to the sad, being based more often than not on actual experiences. The style of writing is fully intended to be humorous, and should appeal to those who enjoy a good belly laugh.

Breaking News Ongoing skepticism over the impact of brexit suggests that rental growth in prime central London  
Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a  
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the  
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,  
said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in  
recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to  
pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which  
is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer  
from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of  
borrowers. "Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for  
some security could choose the fixed rate. "In such a low interest rate environment it would be ideal for borrowers to  
consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before  
entering any arrangement." The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
