What started as one man's dream has become a remarkable example of the best in public education, inspiring student artists throughout the nation and revitalizing the arts and culture of the American community. Based on interviews with and stories written by the schools students, alumni, faculty, staff, and supporters, this book brings to life the never-before-told story of the Orange County High School of the Arts. The nationally-recognized Orange County High School of the Arts began 20 years ago with 125 students and a total operating budget of \$190,000 and is now thriving with more than 1,300 students and a total operating budget of \$12 million.

Established in 1987 as an after-school arts program, the school is now located in the heart of the Orange County arts scene and is the place for aspiring young artists to excel in one of 11 arts conservatory programs.

Breaking News Ongoing skepticism over the impact of Brexit suggests that rental growth in prime central London Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a 2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society, said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of borrowers. "Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for some security could choose the fixed rate. "In such a low interest rate environment it would be ideal for borrowers to consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before entering any arrangement." The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
