

Naked in the Marketplace: The Lives of George Sand

A modern exploration of the life and legacy of the nineteenth century's most infamous and inspirational woman, the always ingenious and occasionally incognito, George Sand. Who was George Sand? She was the first famous Frenchwoman celebrated throughout Europe who wasn't either a saint or a king's mistress. She was also the first woman in Europe to become a bestselling novelist. But her fame is inseparable from her notoriety: the scandal of leaving a husband and child, setting up in Paris with an eighteen-year-old lover, liaisons and friendships with men of talent and even genius: de Musset, Chopin, Balzac, and Flaubert. Politically engaged, Sand was literally, there at the revolution, those of 1831 and 1848, reporting, analyzing, denouncing, exhorting. She believed always in Progress as she did in Love, though she was doomed to be betrayed in both. Acclaimed literary biographer Benita Eisler sheds new light on the many roles, triumphs, and losses that together constituted Sand's overwhelming presence. With nearly ninety novels, 20,000 letters, and thousands of pages of autobiographical writings and political commentary, how did Sand also have the time to live? As Eisler reveals, hers seems more like several lives--literary, political, amorous, and domestic. Earlier biographers have either flash-frozen Sand into a feminist icon or blurred her in the dynamic of child of the century, but *Naked in the Marketplace* presents Sand at her essence--the outsized persona and the inner woman, along with the unique and irreplaceable role she played in the history of her times.

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the

society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society, said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of borrowers. "Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for some security could choose the fixed rate. "In such a low interest rate environment it would be ideal for borrowers to consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before entering any arrangement." The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
