

Concepts of Canadian Identity in Barometer Rising by Hugh MacLennan

Seminar paper from the year 2008 in the subject American Studies - Culture and Applied Geography, grade: 2,0, Turun Yliopisto (University of Turku) (University of Turku, Finland - North American Studies Programm), course: Seminar: The Making of Canada, 4 entries in the bibliography, language: English, abstract: This term paper deals with the question of how the novel Barometer Rising, written by Hugh MacLennan, depicts Canadian identity during World War I. There was no Canadian declaration of War in 1914 although she had her own Canadian delegation at Versailles in 1919. Through this term paper I want to find an explanation of how the war overseas could trigger this national self-consciousness that is also described in the novel. Therefore this paper is supposed to examine this phenomenon from two perspectives. First, from the view social history and second from the view of literary studies.

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,
said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in
recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to
pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which
is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer
from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of
borrowers. "Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for
some security could choose the fixed rate. "In such a low interest rate environment it would be ideal for borrowers to
consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before
entering any arrangement." The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
