

Gods Day Off

After the seventh day, the creator returns to see what an almighty mess mankind has made of His world. He is not happy. THIS BOOK HAS MILD SEXUAL CONTENT AND COULD OFFEND SOME DEVOUT CHRISTIANS, POLITICIANS AND BUSINESSMEN ! Do you think that if Jesus came back today, hed be a Christian?

I looked at the pleasing body of a young woman as she stood on the beach. After a while she picked up a T-shirt and pulled it on, covering her bosom. She bent to find a bottle of water in her bag. I found myself peering to see her chest, now mostly hidden. I caught sight of one of her nipples. Even though her breasts had been on full display a few moments earlier, I found that brief glimpse extremely erotic. Why was this more interesting than seeing her when she was fully exposed? Was it because I was not supposed to see something that had become private? Was Eve even sexier when she wore her fig leaf and Adam saw the occasional glimpse of her pubic hair? Was it because I had broken a taboo by looking at the prohibited? Was this the great meaning of life? Wanting to see what is hidden and forbidden for our own pleasure and amusement? Taking from the universe what is not ours to steal? Having the power not to be punished for breaking the rules? Hoping to glimpse the great secrets of our existence? Wanting to read the last page to see who-dun-it and why?

.....
..... I came out of my introspection, blurting to Miriam in such a way that I was pleased that most people on the boat within earshot were not native English speakers. Do you think that if Jesus came back today, hed be a Christian? I dont think so. He threw the money traders out of the temples. He didnt employ them to raise funds to expand a dogma by selling views of artworks. If we owned a masterpiece, would we charge our friends to look at it? The money is not for

security, God protects the church. Anyway, why do churches have lightning conductors on their spires? I looked at Miriam. She looked back at me as if I had gone mad. And all that because they wanted to charge you fifty cents for a postcard? Youll rot in Hell, I reckon. Miriam wanted her final word on the subject, but I continued.

..... Synopsis: Told with ironic humour, Gods Day Off will tempt you to re-appraise your meaning of life and who, or what, you assume the Christian God to be. * The politicians who put their greed before the people they represent. * The church that puts itself before the suffering in the world. * The drug companies that put profits before health. * Sex is a strong weapon for salvation. God is said to have created everything in six days. He is said to have rested on the seventh. These times are metaphors for aeons. Perhaps the seventh day is still happening, and that God is still resting. Is it possible that man has set his heart on destroying everything that was created while Gods back was turned in the name of religion? The choice is simple, either we clean up our act before Monday morning or we tempt a fate that is unthinkable. This irreverent and sexually tinted novel follows the change in a man when he meets somebody who has adopted an illicit way to bring about changes in the corrupt hierarchies of Government, business and religion. This book has the capacity to upset the kind of people who abuse the planet, people and those who drive gas-guzzlers and dont give a damn about the destruction of our world. They probably have no care for natural disasters such as floods, the tsunamis, the blizzards or the exploitation of oil reserves. It is suggested that they give this book a miss.

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,

said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of borrowers. "Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for some security could choose the fixed rate. "In such a low interest rate environment it would be ideal for borrowers to consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before entering any arrangement." The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
