

## False Impressions

Almost twenty-nine, Kate is bored with her life, going nowhere as a struggling romance author and moonlighting at various dead-end jobs---including but not limited to an upscale retail clerk; dog-walking and babysitting; temping at offices and writing for a barely-paying magazine. Her retail store co-worker, Carly, is a chain smoker with a bad attitude and a foul mouth and helps Kate kick up the excitement in her life by getting Kate into the phone sex industry and creating a fake dating profile on her behalf. One day while waiting for the elevator, Kate bumps into Scott, her massive high school crush whod been an ultra-popular jock. Back then, he hadnt given Kate the time of day since she was the least popular school in girl and he seemed to date only perky cheerleader types. Now, ten years after high school, Scott and Kate reconnect with each other and she will do anything for his attention now, including creating a false identity and giving herself a new and improved life, even if its not real. She doesnt care that Scotts going through a messy divorce and he sees her as a potential friend with benefits while she mentally prepares for their future together.

Kates lies slowly unravel as she spends more and more time with Scott, making him want the fake Kate and it doesnt take long before she cant figure out who she really is anymore.

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a  
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the  
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,  
said: “We are very pleased to offer borrowers the lowest mortgage rate ever available. “The cost of funding has fallen in  
recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to  
pass this on to borrowers.” After the 2-year period the mortgage will revert to the lender’s standard variable rate, which  
is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: “It’s fantastic to see such low rates on offer  
from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of  
borrowers. “Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for

some security could choose the fixed rate. “In such a low interest rate environment it would be ideal for borrowers to consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before entering any arrangement.” The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
