

Tennants Rock (Us)

A young frontier woman, Sissy feels relieved when her brother Nate finally returns from prison after having killed their father. In the ten years that have passed, things have drastically changed and an outsider, a dark and dangerous figure, has forced his way into the family. Sissy, herself, became the victim of this mad, abusive rapist who usurped her brothers role as head of the family. Now, she longs to have her brother save her and her family, but does not know whether she can trust him after what he did to their father. A timeless tale of a familys struggle to overcome insurmountable odds and prosper, Tennants Rock captures the pioneering spirit of the late 19th-century American West. With echoes of Alice Walkers *The Color Purple*, McGiffens gripping story is a thought-provoking and inspiring meditation on one womans strength and weakness, honesty and self deception. AUTHOR BIO: Steve McGiffen has a Ph.D. in American history and has published in *The New England Quarterly* and *The Journal of American Studies*, among others. He now works as European Parliamentary advisor to the Socialist Party of the Netherlands.

Breaking News Ongoing skepticism over the impact of brexit suggests that rental growth in prime central London
Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,
said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in
recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to
pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which
is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer
from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of
borrowers. "Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for
some security could choose the fixed rate. "In such a low interest rate environment it would be ideal for borrowers to
consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before
entering any arrangement." The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
