

Price on Their Heads: A Novel of Income Inequality and Mayhem

Warning: This story contains impolite language, graphic violence, a little sex, and is very politically incorrect. Jackie Key inherits a full scholarship from a rich man murdered by his brother, and seeks justification by studying the economic ripple effects of the dissolution of the dead mans assets. What he discovers and tries to publish makes him become public enemy number one among the countrys rich and powerful because Dr. Jackie Key can calculate a true economic price on their heads. From Jeff Posey, author of *The G.O.D. Journal*, comes a contemporary political thriller that exposes the cruelly tilted playing field of American economics and politics, and how the governments response drives Nobel Prize-winning economist Jackie Key to become the mastermind of a team of assassins who target his hit list of the too rich to exist. When Jackie Key overhears his parents employer refer to his household staff as subhuman, he rushes forward with a kitchen knife that ultimately frames the cook. His brother, a trained military assassin, wrests the knife from Jackie and plunges it between the ribs of the 127th-richest man in America. Twenty-five years later, Dr. Jackie Key is prepared to publish a model that calculates an economic price on the heads of the richest people in the country, the ultimate justification for the murder his brother committed. Maura Booker, senior correspondent for *The New York Times*, hounds Jackie into an interview, and then embeds herself with Jackie as government and private forces attempt to quash Dr. Jackie Keys publication and vilify him as an enemy of the state. Jimmy, Jackies brother who he thought died decades ago, returns leading a team of trained and motivated assassins. Jackies moral world twists and turns as he grapples with the disproportionate response to his lifes work and finds an unexpected chance at love

with Maura, who stays by his side and writes books and articles for an increasingly angry public. Under enormous pressure, Jackie transforms himself into an assassin with a code, an icebreaker for change, a standing threat of mayhem against the arrogant rich and powerful if they refuse to change their globally destructive behavior.

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,
said: “We are very pleased to offer borrowers the lowest mortgage rate ever available. “The cost of funding has fallen in
recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to
pass this on to borrowers.” After the 2-year period the mortgage will revert to the lender’s standard variable rate, which
is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: “It’s fantastic to see such low rates on offer
from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of
borrowers. “Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for
some security could choose the fixed rate. “In such a low interest rate environment it would be ideal for borrowers to
consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before
entering any arrangement.” The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
