

## The Yellow Wallpaper (Special Edition): The Yellow Wallpaper & Herland

This special edition contains two of Charlotte Perkins Gilman's most popular short stories, the widely acclaimed *The Yellow Wallpaper* and the controversial *Herland*. *The Yellow Wallpaper* is a story about a woman who suffered from post-partum depression after recently giving birth to a child. She was confined to bed in a nursery and forbidden by her physician husband to write or work during her rest cure. Without any mental stimulation, she experienced episodes of anxiety and fatigue. She also became irritated and obsessed with the patterns and distinct smell of the wallpaper in her room.

What she discovered after the peeling off the wallpaper shocked her senses to the core. *Herland* is a Utopian novel about three adventurers, who stumbled onto an isolated, all-female society. Each of these characters arrived with their own preconceived ideas about women. Vandyck, a sociologist, views women from the male-dominated, Victorian, perspective. He believed that women are incapable of organizing, cooperating, and specializing in work. Jeff, who was described as a romantic, believed that women should be worshiped and placed on a pedestal. Terry, in contrast, is the proud flag bearer of the male machismo. Their fortuitous encounter and the subsequent relationship they developed forced them to re-examine their assumptions about women's roles in society.

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a  
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the  
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,  
said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in  
recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to  
pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which  
is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer  
from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of

borrowers. “Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for some security could choose the fixed rate. “In such a low interest rate environment it would be ideal for borrowers to consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before entering any arrangement.” The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
