

A White House Christmas: Politics, Religion and Truth

A White House Christmas A White House Christmas uses fantasy Christmas magic, politics the debate about church and state and Christian faith to find the true meaning of Christmas. Washington DC politics and The White House are the setting. The President of the U S is the main character. Personal tragedy and Christian apathy are strong influences on the president as he battles politicians trying to use church and state debate to tax Christmas. The story uses faith building messages, and political fact as a deliberate contrast to the fantasy of Christmas Angels, magical Christmas stores, childhood memories and unique portraits of Christmas history. The text also includes several original songs, written by the author for this story. Christmas can reek havoc in the human mind. Ever wonder. What drags our social conscience into darkness? Think political WILL could change the meaning of Christmas? Is America willing to sacrifice the freedoms guaranteed us by The First Amendment to appease a godless minority? Ever ponder the Truth? DO YOU BELIEVE A SINGLE BRIGHT STAR STILL LEADS US TO PEACE? A White House Christmas will answer these questions and joyously deliver Gods great gift, Christmas. A White House Christmas is a sequel to Ghetto Fire, a political thriller published in 1996.

Breaking News Ongoing skepticism over the impact of brexit suggests that rental growth in prime central London Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a 2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society, said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of borrowers. "Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for some security could choose the fixed rate. "In such a low interest rate environment it would be ideal for borrowers to

consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before entering any arrangement.” The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
