

The Supreme Court and Religion in American Life, Vol. 1: The Odyssey of the Religion Clauses (New Forum Books)

School vouchers. The Pledge of Allegiance. The ban on government grants for theology students. The abundance of church and state issues brought before the Supreme Court in recent years underscores an incontrovertible truth in the American legal system: the relationship between the state and religion in this country is still fluid and changing. This, the first of two volumes by historian and legal scholar James Hitchcock, provides the first comprehensive exploration of the Supreme Courts approach to religion, offering a close look at every case, including some that scholars have ignored. Hitchcock traces the history of the way the Court has rendered important decisions involving religious liberty. Prior to World War II it issued relatively few decisions interpreting the Religious Clauses of the Constitution. Nonetheless, it addressed some very important ideas, including the 1819 Dartmouth College case, which protected private religious education from state control, and the Mormon polygamy cases, which established the principle that religious liberty was restricted by the perceived good of society. It was not until the 1940s that a revolutionary change occurred in the way the Supreme Court viewed religion. During that era, the Court steadily expanded the scope of religious liberty to include many things that were probably not intended by the framers of the Constitution, and it narrowed the permissible scope of religion in public life, barring most kinds of public aid to religious schools and forbidding almost all forms of religious expression in the public schools. This book, along with its companion volume, *From Higher Law to Sectarian Scruples*, offers a fresh analysis of the Courts most important decisions in constitutional doctrine. Sweeping in range, it paints a detailed picture of the changing relationship between religion and the state in American history.

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,
said: “We are very pleased to offer borrowers the lowest mortgage rate ever available. “The cost of funding has fallen in
recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to
pass this on to borrowers.” After the 2-year period the mortgage will revert to the lender’s standard variable rate, which
is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: “It’s fantastic to see such low rates on offer
from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of
borrowers. “Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for
some security could choose the fixed rate. “In such a low interest rate environment it would be ideal for borrowers to
consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before
entering any arrangement.” The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
