

## The Mother Load

This comedy tells the story of three women at different stages of marriage and motherhood. Former lawyer Sophie is the mother of two young children and a workaholic husband. Much to her chagrin, her pastimes now include fantasizing about Disney princes and the destruction of an evil queen, her tongue-clucking mother-in-law. Sophie's older sister Emma shares a home with their 70-year-old, pilates-loving father and is single mom to a 12-year-old boy with a deadbeat dad. Sophie's sister-in-law Bridget is a happily married pediatrician trying to conceive a child of her own through fertility treatment while remaining committed to her patients. Each woman struggles in her own way to balance her role as wife, mother, sister and daughter with her desire for personal fulfillment. *The Mother Load* is a comical tale about the complexities of modern motherhood.

Breaking News Ongoing skepticism over the impact of brexit suggests that rental growth in prime central London Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a 2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society, said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of borrowers. "Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for some security could choose the fixed rate. "In such a low interest rate environment it would be ideal for borrowers to consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before entering any arrangement."
