

The Sound of a Tree

In the late 1800s, some twenty years after the Civil War, men of questionable integrity governed the Dakota Territory. One of these men was Judge Bass of Copper Springs. He ran the town with his henchman Sheriff Tenton. These two men wanted things their way—money, women and money—and they would do whatever it took to get it, even kill innocent men. Jimmy Dugan, a good Christian and family man with three daughters and a son, having been convicted of a crime he did not commit, was to die. Black Heart Paul was a criminal who deserved nothing better than to hang the day after Jimmy. The two men, very different in every respect, became unlikely friends. One was guilty as sin, the other innocent as fresh snow; both were to die if not for the strange events that would somehow keep one alive to redeem himself. *The Sound of a Tree* combines elements of action, suspense, and love that are designed to entertain, provoke thought, and capture the imagination.

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a 2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society, said: “We are very pleased to offer borrowers the lowest mortgage rate ever available. “The cost of funding has fallen in recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to pass this on to borrowers.” After the 2-year period the mortgage will revert to the lender’s standard variable rate, which is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: “It’s fantastic to see such low rates on offer from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of borrowers. “Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for some security could choose the fixed rate. “In such a low interest rate environment it would be ideal for borrowers to consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before entering any arrangement.” The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
