

## Minotaurs Labyrinth - A Tale of Revolution

A tale of the revolutions of the Picasso men, beginning with the great-grandfather supporter of Napoleon is Spain, through the ultimately fatal mission of the grandfather in Cuba to Pablo Picassos Communism - all warriors against tyranny in their times and at any cost. The story is based on historical facts and a true story. . . . Minotaurs Labyrinth is a tale that covers almost two centuries, about the political path taken by Picassos forefathers that produced this modern man and revolutionary artist. Its a story of idealism, professional manipulation and ultimate personal betrayal, glossed over by his enemies gross commercial gain still on display today. Picasso was appropriated and dehumanized for the sake of profit, though his natural heirs suffered a worse and more brutal fate. Actual historical facts woven into the story will hopefully reopen the book on Picasso who as a human being was dismissed in favour of his art, and raise questions long buried. We will see some of the damning connections between key figures in his life, while some have been romanticized tongue-in-cheek to send up some of the cliches entrenched about Picasso and provide in passing a few perhaps educational passages for the younger generation of readers.

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a  
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the  
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,  
said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in  
recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to  
pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which  
is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer  
from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of  
borrowers. "Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for  
some security could choose the fixed rate. "In such a low interest rate environment it would be ideal for borrowers to  
consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before  
entering any arrangement." The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
