

The United Nations and Other International Institutions, A Critical Analysis

This work is a critical study of the United Nations and other international and intergovernmental organizations such as The International Monetary Fund, World Trade Organization, Trilateral Commission, Group of Seven, OPEC, and the Organization of American States. Frederick Gareau presents these international organizations in action. The book goes beyond the description and history of organizations to critically analyze the role of governments, especially the United States, in the functioning of international organizations. The impact of the hegemonic Washington is examined throughout the text. The author uses the casebook method to put intergovernmental organizations (IGOs) in a broad context. Special attention is given to the issues of terrorism, both state terrorism and individual terrorism. This readable book is free of economic and legal jargon and will be a valuable resource to students of international politics and American foreign policy, as well as to the lay reader. A Burnham Publishers book

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,
said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in
recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to
pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which
is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer
from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of
borrowers. "Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for
some security could choose the fixed rate. "In such a low interest rate environment it would be ideal for borrowers to
consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before
entering any arrangement." The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
