

The Parnell Influence

Book Description: From the gold mines of California to the coalmines of Pennsylvania. Through the Civil War, and to the beginning of the twentieth-century, the Parnell family makes its mark. Samuel Parnell, an Irish immigrant, and patriarch of the Parnell family, amasses a respectable fortune by selling mercantile goods in the gold mining town of Hellbent. Then after killing a starving prospector caught stealing food from his store, he and his family are exiled from the hostile community. They then move eastward, where Samuels quest for financial and political power conflicts with his familys quest for their own personal identities: a quixotic daughter fights for female equality; a hapless son leads excavations in search of dinosaur remains; and a frequently befuddled wife searches for a sense of purpose. Ambitions are crushed. Lives and fortunes are lost. Unique personalities, combined with bizarre circumstances, serve to make the Parnell family one of the most memorable, if not amusing dynasties the world has ever seen. Author Bio: Joseph Strout was born in New Jersey and educated at Rutgers University. The Parnell Influence represents his fascination with history, as well as his fondness for the town where he was raised.

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,
said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in
recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to
pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which
is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer
from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of
borrowers. "Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for
some security could choose the fixed rate. "In such a low interest rate environment it would be ideal for borrowers to
consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before

entering any arrangement.” The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
