

## Subterranean Worlds: A Critical Anthology (Early Classics of Science Fiction)

The bizarre idea that the earth's interior is hollow and, perhaps, even populated has been put to effective literary use by writers ranging from Edgar Allan Poe and Jules Verne to Rudy Rucker and Edgar Rice Burroughs. This notion had respectability as a scientific hypothesis until the early 1800s, and the theory that the earth is hollow and inhabitable within continues to find believers as an alternative description of the earth to this day. The hollow earth is one of the most important settings in the literature of the imagination that fed into early science fiction. *Subterranean Worlds* presents a fascinating look at the theme of the hollow earth and its history, as well as the geological theories which produced many of these stories. It excerpts key passages from the major subterranean world fictions, some translated into English for the first time. With helpful introductions to each selection and a comprehensive bibliography, this book is the definitive treatment of this entertaining topic.

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a  
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the  
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,  
said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in  
recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to  
pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which  
is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer  
from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of  
borrowers. "Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for  
some security could choose the fixed rate. "In such a low interest rate environment it would be ideal for borrowers to  
consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before  
entering any arrangement." The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
