

## Uncovered: Healing

Uncovered: Healing concludes the story that began with Uncovered: Mistress. Kelsey never would have imagined her husband would cheat on her. She hadn't thought Omar was that kind of man. They'd been married happily for years. They were finally ready for a kid and he was even more interested about having a child than she was. Kelsey thought she knew Omar. He proved her wrong. But a far bigger illusion was shattered. Kelsey never would have imagined her husband's affair would turn her on. She certainly never would have imagined that overhearing Omar's mistress, and then seeing that mistress, would get her excited. Her husband's apparent affair led Kelsey to sleep with a series of men, and even come close to sleeping with a number of women as well. But after uncovering a shocking truth about her husband's activities, Kelsey realizes that she owes Omar an apology, and an explanation. She warms her husband up to that apology with some of the nastiest sex she can offer him. Kelsey wants to keep her husband. More than that, she wants to move forward. She doesn't want to give up her affairs, she wants her husband to sanction them. And, before that, she wants her good friend, Vickie, to sleep with her husband, while she watches, fulfilling the fantasy that began her exploration. But Kelsey doesn't even know how to judge her husband's response. Even as he has sex with her, she fears she might be losing him. This is the 6th and final part of the serialized novel Uncovered, after the events of Uncovered: Mistress, Uncovered: Getting Even, Uncovered: Family Woman, Uncovered: Straying, and Uncovered: Hard Truths.

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a  
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the  
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,

said: “We are very pleased to offer borrowers the lowest mortgage rate ever available. “The cost of funding has fallen in recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to pass this on to borrowers.” After the 2-year period the mortgage will revert to the lender’s standard variable rate, which is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: “It’s fantastic to see such low rates on offer from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of borrowers. “Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for some security could choose the fixed rate. “In such a low interest rate environment it would be ideal for borrowers to consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before entering any arrangement.” The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
