

Glas: New Russian Writing, vol 1, 1991

Russia is a country rich in talent which as often gone unrecognized or been actively suppressed- and its literary achievements have frequently been inaccessible to non-Russians. GLAS has been designed to bridge the cultural gap between East and West by providing translations which allow the best modern Russian writing to speak directly to the Western reader. The sources at our disposal are vast--new works by young talents and established writers, works well-known to the readers of samizdat but now freely available for the first time, works that have never been offered for publication before, works that have emerged from decades of imposed obscurity . . . The Russians write a lot. And they read a lot. In these turbulent times the Russian literature scene is changing rapidly, and every new contribution is avidly consumed. Our intention is to involve readers in this fascinating process. GLAS is produced through the efforts of a team of experienced writers, critics, editors and translators. Our greatest hope is that you will enjoy it.

Breaking News Ongoing skepticism over the impact of brexit suggests that rental growth in prime central London Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a 2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society, said: "We are very pleased to offer borrowers the lowest mortgage rate ever available. "The cost of funding has fallen in recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to pass this on to borrowers." After the 2-year period the mortgage will revert to the lender's standard variable rate, which is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: "It's fantastic to see such low rates on offer from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of borrowers. "Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for some security could choose the fixed rate. "In such a low interest rate environment it would be ideal for borrowers to consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before entering any arrangement." The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
