

A World History of War Crimes: From Antiquity to the Present

A World History of War Crimes provides a truly global history of war crimes and the involvement of the legal systems faced with these acts. Documenting the long historical arc traced by human efforts to limit warfare, from codes of war in antiquity designed to maintain a religiously conceived cosmic order to the gradual use in the modern age of the criminal trial as a means of enforcing universal norms, this book provides a comprehensive one-volume account of war and the laws that have governed conflict since the dawn of world civilizations. Throughout his narrative, Michael Bryant locates the origin and evolution of the law of war in the interplay between different cultures. While showing that no single philosophical idea underlay the law of war in world history, this volume also proves that war in global civilization has rarely been an anarchic free-for-all. Rather, from its beginnings warfare has been subject to certain constraints defined by the unique needs and cosmological understandings of the cultures that produce them. Only in late modernity has law assumed its current international humanitarian form. The criminalization of war crimes in international courts today is only the most recent development of the ancient theme of constraining when and how war may be fought.

Yorkshire unveils record low rate of 0.89% 7 hours ago LONDON FLATS 0 Yorkshire Building Society has launched a
2-year discount rate mortgage at 0.89% up to 65% loan-to-value. The product comes with a £1,495 fee, though the
society also offers a £995 fee option at 1.05%. James Farrow, senior mortgage manager at Yorkshire Building Society,
said: “We are very pleased to offer borrowers the lowest mortgage rate ever available. “The cost of funding has fallen in
recent weeks and as a financially strong building society with no external shareholders to satisfy we have the ability to
pass this on to borrowers.” After the 2-year period the mortgage will revert to the lender’s standard variable rate, which
is currently 4.74%. Rachel Springall, finance expert at Moneyfacts, said: “It’s fantastic to see such low rates on offer
from Yorkshire Building Society and the choice between variable or fixed deal will appeal to different types of
borrowers. “Those looking for more flexibility over the shorter term may prefer a discounted deal, but those looking for
some security could choose the fixed rate. “In such a low interest rate environment it would be ideal for borrowers to

consider overpaying their mortgage. As with any option borrowers would be wise to weigh up the entire package before entering any arrangement.” The post Yorkshire unveils record low rate of 0.89% appeared first on Mortgage Introducer.
